

Appendix 1: Minisurvey questions

Format notes:

Randomize presentation of Questions 2-4

People who want a baby sometimes use donated sperm, donated eggs, or donated/adopted embryos to achieve pregnancy.

1. How familiar are you with sperm donation, egg donation, embryo donation or embryo adoption?
 - a. Very familiar
 - b. Somewhat familiar
 - c. Not very familiar
 - d. I have heard these terms, but don't know anything about them
 - e. I have never heard these terms before
2. Do you know or suspect that your parent(s) became pregnant with you by using donated sperm or eggs, or that you were a donated/adopted embryo? This would include donations from known or unknown donors, clinics, banks, doctors, or embryo adoption.
 - a. Yes, I know my parent(s) used donated sperm and/or eggs
 - b. Yes, I know my parent(s) used a donated/adopted embryo
 - c. Yes, I suspect my parent(s) used donated sperm and/or eggs
 - d. Yes, I suspect my parent(s) used a donated/adopted embryo
 - e. No, I know my parent(s) did not use donated sperm, eggs, or embryo
3. Have you ever donated (paid or unpaid) your sperm, eggs, or embryos? This could be through fertility clinics, banks, doctors, or directly to a known or unknown recipient.
 - a. Yes
 - b. No
4. Have you or your partner ever become pregnant using donated sperm or eggs or a donated/adopted embryo? These donations could have been received through a clinic, bank, doctor, or directly from a known or unknown donor.
 - a. Yes
 - b. No
 - c. Unsure
